

VoIP Outdoor Intercom with Keypad

CyberData

The IP Endpoint Company

The brand new version of our keypad intercom is now available in an outdoor model. This two-way communication and secure access device is the newest in our line of Power over Ethernet (PoE 802.3af) and VoIP intercoms and delivers an adaptable, cost-efficient alternative to old analog intercoms. Combining the versatility of a SIP based keypad intercom with the increased weather protection rating of IP65, this device is perfect for settings such as commercial/ residential facilities, schools and universities, retail establishments, warehouse and manufacturing plants, parking garages and shipyards, and so much more.

*Shown with the 011215 Weather Shroud (sold separately)

New Features include:

- Faster processor
- Increased IP RATING to IP65
- Now supports SRST (Survivable Remote Site Telephony) in a Cisco environment
- New streamlined case design
- Optional Weather Shroud (pictured) for even greater weather protection

Features

- PoE 802.3af enabled (Powered-over-Ethernet)
- 12-key keypad with backlight
- Programmable speed dial
- SIP compliant
- Adaptive full-duplex voice operation
- Network web management and firmware download
- Network adjustable speaker volume
- Concurrent SIP and multicast paging
- Dry relay contact for auxiliary control (controls external power)
- Door closure and tamper alert signal
- Downloadable alert, ringtones and callout messages
